Applicant's election without traverse of Group IV invention (claims 30-36) in the reply filed on March 07, 2006 is acknowledged.

Claims 1-29 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim.

Election was made **without** traverse in the reply filed on March 07, 2006.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the title :

Amend the instant title as follows :

--Phase-change memory device capable of preprogramming memory cells optically and reading/writing memory cells electrically--.

In the claims :

In claim 30, line 9, after "circuit", add --coupled to said plurality of memory cells,--; and

Cancel claims 1-29.

This application is in condition for allowance except for the presence of claims 1-29 directed to invention non-elected without traverse. Accordingly, claims 1-29 been cancelled.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Art Unit: 2824

Claim 30 recites an electrically programmable phase change memory device comprising a plurality of memory cells transitioned from a first phase to a second phase optically; and a read/write circuit coupled to said plurality of memory cells, to read and write said memory cells electrically. The prior art fails to teach these features.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
